

Reject NAB Petition 04-160 and let the NAB learn to compete instead of buy their way. I never listen to AM-FM as far as I'm concerned the programming stinks. I love my satellite radio and feel I should be able to get my info from it and not be FORCED to get it from AM-FM. It's all about choice and in America it seems every day we are getting less and less choice. I for one won't be forced, I'll do without first. Think about it FCC and DO THE RIGHT THING!!!
